

E-Commerce Developer Opening

The E-Commerce Developer will be responsible for a wide variety of programming and systems administration tasks required to manage an e-commerce website and department store point of sale system. The primary focus will be on back end website development and API/Web Services integrations. Must be self motivated, eager to learn, and be able to work with current staff.

Getz's Inc will expect the new hire to have experience in the following areas:

- Writing code in a Linux, PHP, MySQL, and Javascript environment.
- Working with and integrating Web Services APIs.
- Experience working with versioning software such as SVN or Git.
- Knowledge of modern web standards (HTML5, CSS3, SVG...)

Getz's is a rewarding and flexible working environment. Here are some of benefits you will receive working with Getz's.

- Full-time position with competitive hourly rate (based on experience.)
- Invaluable work experience in a growing e-commerce business.
- Access to deep discounts on gear and clothing.

Getzs.com was founded in 1997. Staying authentic to the original vision and providing industry leading customer care, Getzs.com has cultivated an extremely loyal customer base in the competitive online clothing and footwear world. We are constantly improving our customer experience. Quality people are the building blocks to continue to achieve this vision.

All management team members are Northern Michigan University alumni.
